WANTED!! TINY HOUSE MANUFACTURERS AND OWNERS

Help us bring Ontario to the forefront of the Tiny House movement by exhibiting your tiny house at Ontario's first (and finest) **Tiny House Festival** – following the example of Quebec's successful "Festival Mini-Maisons." Details follow.

The goal of the festival is to inspire and explore options to reduce the ecological footprint in the construction of homes. The festival provides an important opportunity to market products and services and promote businesses to an appreciative and informed audience.

What: Tiny House Festival Ontario features energy efficient housing and sustainable building design. It is being organized by *Beyond Events* and Homesol Building Solutions in Perth (https://homesolbuildingsolutions.com/).

There will be a number of tiny houses for public viewing; seminars for environmentalists; exhibitors of related services and products; and music/food for a relaxed atmosphere. Speakers will include Chris Magwood from Endeavor Centre and Ross Elliott of Homesol.

When: Weekend of September 23-24, 2017

Where: Maberly Fairgrounds near Perth, ON (one hour west of Ottawa)

Who: Perth is the county seat of Lanark, a region renowned for its recreational value. The festival will draw residents from the town of Perth and surrounding area, seasonal cottagers, and passing tourists. We anticipate an attendance of 500 or more individuals and families over the course of the weekend.

I would be pleased to book you a spot at the festival or to provide more information. I look forward to hearing from you!
